

TELEDEX®

SMALL IS THE NEW BIG.

E SERIES

Amazingly big on features, yet surprisingly small in size.

E SERIES

Drawing upon our proud tradition of technological innovation and product reliability, the Teledex E Series has been designed and built with a smaller footprint to meet the unique needs of the hospitality market.

The smaller E Series footprint occupies less room on the hotel guestroom nightstand or desk, and requires less energy in the manufacturing process, so the impact on the environment is smaller as well. Micro-footprint E Series phones have effectively created an entirely new hotel guestroom telephone category designed to meet emerging limited-space hotel guestroom and cruise line applications.

Small is the new big.
